## CANDIDATE FORAKER

Washington, Apr. 14.—A careful analysis of the testimony taken in the investigation of the shooting up of Brownsville, Tex., August 13-14, 1906, and an argument in favor of the re-enlistment of the colored soldiers of the 25th regiment U. S. Infantry, was made in a speech delivered today by Senator Foraker, of Ohio.

The senate gave him an attentive hearing, and the galleries were filled. The Senator disclaimed the assertion that the investigation was made to embarrass the President, or anyone else, but said it was made to ascertain the facts. He said most of the witnesses against the soldiers testified four different times, and their testimony was sufficiently contradictory to show it unreliable, while the discharged men gave their testimony in a straightforward way. In regard to the cartridge shells found after the shooting, he said it was impossible for the soldiers to have obtained the cartridges without the fact being developed in the examination. Another point he made was that there was no motive for the soldiers "shooting up the town." He advocated the passage of his bill, which annuls the record of discharge without honor, and provides for the re-enlistment of the discharged soldiers. He closed with a tribute of praise for the negro race, which he said had ever been loyal to America and American institutions.

**CAPTAIN PENN COMPLETES INSPECTION OF INSTITUTE.**

The inspection of the New Mexico Military Institute for the War Department of the U. S. Government was today completed by Captain Julius A. Penn, of the General Staff at Washington, who started the work yesterday. The work this morning

consisted of escort of colors, with Capt. Robert C. Garrett, commandant of the battalion, drill with the field pieces by a detachment of twelve second classmen under Major Pearson, and an exercise by a small signal corps. The field piece drill, in which the two 3.2 inch guns of the Institute were used, consisted of detachment movements and manual of the cannon. The signal corps did its work with flags.

Captain Penn served as major in the 34th U. S. Volunteers in the Philippine Islands in 1899. The second battalion, which he commanded, was recruited largely in New Mexico, Arizona and Colorado, the battalion having been organized at Fort Logan, near Denver. In his command were Capt. Wm. E. Dame, formerly clerk of the Federal court at Albuquerque, Capt. Max Luna, of Las Cruces, who lost his life in the Philippines, and Lieutenant Sherrard Coleman, all of New Mexico, and many other men from this territory.

**WORKMEN INJURED IN STREET RAILWAY WRECK.**

Butler, Pa., April 14.—In a wreck on the new Pittsburgh, Harmony, Butler and Newcastle street railway at Evans City, near here today twenty-one workmen, a majority of whom are foreigners, were severely injured, three of them perhaps fatally. While mounting a steep grade a car loaded with workmen and coal broke from the engine and started backwards at great speed. It jumped the track at a curve, throwing the men to the ground and burying some of them in the debris.

## BANKERS OPPOSED

Chicago, April 13.—The Tribune today says: The Aldrich currency bill, now under consideration by the House Committee on Banking and Currency has met with opposition in the clearing house and national banks in practically every city of the country. Even state banks and trust companies, which are not directly concerned in the act, have voiced their displeasure at the proposed law. A canvass of the national banks of the country shows that practically every one fears the results of the Aldrich act in case it become a law. The most prominent exception, and the only large city institution favoring the bill, is a large Washington institution which has millions of government bonds in its vaults.

There are some bankers throughout the country, who, although opposed to the bill in some particulars, are willing to accept it as a temporary guard against a recurrence of the recent panic, but the majority declare it is not only useless but a harmful measure. In a total of 421 banks in 37 large cities, eleven banks declare in favor of the bill, while 410 are against it.

## NEW YORK DEMOCRATS

New York, April 14.—A lively convention has been predicted for the Democrats today. With a supreme court injunction hanging over the heads of the state committee to prevent the ousting of Senator Patrick H. McCarren's delegates from 16 contested districts in Kings county, and the prospect of a lively fight by the followers of Bryan to secure recognition for their leader and an instructed delegation in his behalf, the outlook was that the proceedings would be exciting. About the only thing that seemed to be taken for granted was the success of the plan to send an uninstructed delegation from New York to Denver, in spite of the efforts of the Bryan men who are largely in the minority.

After argument before Justice Crane, today the justice modified his previous order so that while the state committee may not strike the names of the McCarren delegates from the temporary roll, the contests may be carried to the floor of the convention. He said, "The convention is the proper judge of its members."

**Delaware Democrats for Gray.**

Dover, Del., April 14.—Last night's action of the Democratic convention in agreeing upon the form of endorsement for Judge George Gray as Delaware's choice for the presidential nomination, removed all doubts as to the outcome of the convention this afternoon. The six delegates will be instructed to vote for Gray; but the friends of Bryan claim he is the second choice of the delegation.

**Bryan Rally at Peoria.**

Peoria, Ill., April 14.—One of the principal features of the Bryan rally here tonight will be the fact that Frank J. Quinn will be the presiding officer. Three years ago at Springfield Quinn joined the Roger Sullivan forces against Bryan, but the difficulties seem amicably settled, and Quinn has accepted the offer to preside.

**Governor Johnson at Chicago.**

Chicago, April 14.—Governor John A. Johnson, of Minnesota, arrived here today from Louisville. At noon he was entertained at luncheon by the Chicago Press Club and delivered a short address. Later in the afternoon he spoke to the Chicago Advertisers Association. Governor Johnson declared emphatically that he and his friends are taking no part in the factional fight in this state between the friends and opponents of Roger Sullivan for national committeeman. He said he was not attempting to influence in any manner the personnel of the delegation that is to be sent from this state to the national convention at Denver.

**Hawaiian Delegates Uninstructed.**

Honolulu, April 14.—The territorial Republican convention met yesterday and elected delegates to the national convention, uninstructed. The platform endorses the Roosevelt administration, favors tariff revision, fortification at Honolulu and the naval station at Pearl Harbor.

**FRENCH AND ITALIAN CARS REACH SEATTLE.**

Seattle, Wash., April 14.—The French and Italian cars in the New York to Paris auto race reached here late yesterday, and after a parade were loaded aboard the steamer Aki Maru, which sailed for the Orient early today. The German car will not

reach here for several days. All the machines will be shipped directly to Japan and will be transported from there to Vladivostok. The American machine is due to arrive from Alaska within a few days and will be sent to the Orient, having found the trails of Alaska impassible.

Mrs. C. H. Hale and Miss Wilson have opened a new millinery store at the old stand of the Evans boarding house, at 314 N. Richardson, with a full line of bright, stylish goods.

**EXCITEMENT LESSENED IN STREET CAR STRIKE.**

Chester, Pa., April 14.—After a night of excitement and scenes of disorder the street car strike in this city has calmed considerably, and no further serious trouble is anticipated.

**SAN FRANCISCO NOW DECLARED A CLEAN CITY.**

San Francisco, April 14.—The California Promotion Committee made the following announcement yesterday: The city of San Francisco, that two years ago was in great confusion and its streets filled with debris, has had a wonderful reorganization. When it is considered that over one hundred million dollars has been put into buildings alone, the immensity of the work accomplished may be realized. In addition the city has had a house-cleaning, and is now pronounced one of the cleanest and most healthful in the United States. People from all parts of the nation are preparing to attend the festival attending the arrival of the American fleet at San Francisco, and in this connection the health authorities of the city and the federal authorities state that the residences and places of business are cleaner than ever before, that no case of plague has occurred in over sixty days and that no cases are now under suspicion.
